

A Message from Bruce, the new owner of R A Barker...

Hi, I'm Bruce Rice, and I would like to introduce myself to you as the new owner of R A Barker Engineering. I have been involved in engineering and tool making for the past 40 years and modelling for the last 30 years, helping others build models, repairing steam locos and I have rebuilt many engines and boilers. I currently own a 6" Atkinson steam wagon and I have built a 3" Burrell traction engine and a 4" Case.

As you are aware, R A Barker Engineering has long been known for excellent service and attention to detail. We aim to stay committed to customer needs and will continue to provide the same high quality products and service on which R A Barker have build their reputation.

I would like to assure you that the change in ownership will not affect the company's policies or manner of conducting business.

I hope that we will have the privilege to continue to serve you in the future,

Bruce
